CHICAGO, DANVILLE & VINCENNES
1st MORTGAGE BONDS.
Issue Only $18,500 per Mile.
THE ROAD NOW EARNING NET, NEARLY DOUBLE ITS ENTIRE INTEREST OBLIGATIONS.
THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS
1st. The Stockholders have built a first class road and equipped it in a first class manner, *mainly with their own money.*
2d. They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum, and are paying large and regular dividends.
3d. They have built the shortest road to the celebrated Block Coal Mines, whose products have large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses.
4th. The road is already earning so large an excess of its interest liability that its lands are safe beyond contingency.
5th. The amount of the mortgage is very moderate, being only about $18,500 per mile.
6th. While Railroad Bonds may be plenty, those upon profitable lines, and for so small an amount, are seldom in the market.
7th Over $1,200,000 of these lands have been sold in a few weeks to Trust Companies, Savings Banks, trustees of estates, and the most careful private investors and but a small amount remains, for which early application should be made.
8th That as only a small amount remains unsold, parties who want them should make immediate application.
The Bonds are for $1,000 each, have forty years to run, and bear interest at the rate of 7 per cent. per annum, payable on the first of April and October, both principal and interest being payable in gold in New York.
We do not hesitate to recommend these Bonds as unusually safe. They are attended with none of the uncertainties of projected enterprises, and the prompt payment of the interest, and the final payment of the principal, are as certain as any future financial event can well be

AGRICULTURE OF MAINE.

SECRETARY GOODALE'S ANNUAL REPORT.

From a hasty examination of the Sixteenth Annual Report of the Secretary of the Maine Board of Agriculture, for the year 1871, we observe that the first session of 1871 was mainly devoted to dairying and kindred subjects, while the topics of the second session were more diversified in character, making up a complete annual of incalculable value to the most important present interest of our State. Especially noteworthy is the practical character not only of the papers prepared by the several members of the Board of Agriculture but of the able addresses of the men eminent in their vocations, who have been induced to take part in the sessions of the Board, and also of the discussions following the presentation of each paper and lecture.—

As usual the volume is admirably edited.—One can hardly fail to notice how cleverly the discriminating utterances from the clear mind of the impartial Secretary bring out and fix upon the attention points made in the papers and by the speakers, the full value of which would perhaps otherwise escape the reader's appreciation. We take a single instance, one of many such, from page 29, where Mr. Goodale gives the proper, full effect to the expression of a paper just read, "that much of the fodder which went into animals was better fitted for bedding," by commencing with the remark that "here we may get a lesson regarding the importance of cooking food" and then going on to develope and enforce the assertion in a manner that can not be gainsaid. This sentence we had passed over without special note in our perusal of the very valuable paper, upon "Stock raising and Beef-making in Maine," in which it occurred, presented by Mr. L. L. Lucas of Somerset, a composition of strong good sense embodying the conclusions of an evidently earnest, practically educated mind. Mr Lucas submitted some figures, obtained from the knowledge and experience of our fellow townsman Mr. Henry Fowler, in a form which we are sure, our thinking farmers will ponder to their natural advantage.

There are included in the report no less than three addresses upon associated dairying—one by the Rev. Mr. Gurney, of Foxcroft; another upon "the Advantages to accrue to Farmers' Wives and Daughters by Associated dairying," from Mr. D. H. Thing of Kennebec, and an exhaustive and eloquent address upon the same subject by Mr. X. A. Willard, dairy editor of the Rural New Yorker, of Herkimer, New York. These discourses cannot fail to command the grateful appreciation of our farmers as well as their wives and daughters, and may stimulate their sons to inaugurate a revolution in the business of some country towns in localities favorable to these associations. Following Mr. Willard's address is a record of interesting experiments by Mr. Boussingault, a French analyst, to determine whether the nature of the food affects the proportion of butter in milk. This valuable paper was translated and presented by Prof. G. L. Goodale, and is followed by an instructive address on buttermaking, by Mr O. S. Bliss, Secretary to the Vermont Dairymen's Association, full of detail and admirably illustrated by the subsequent discussion.

The lecture upon plant growth by Prof. M. C. Fernald, of the college of agriculture and mechanic arts, at Orono, is in itself an agreeable study and worthy of a scholar's time.—The lecture upon the cooking of food for farm stock, by Mr. L. A. Gilbert of Androscoggin, has also great merit and will be read with sustained interest. The paper on the improvement of pastures by the Cumberland member, the Hon. Seth Scammon, is sound and practical, like all our friend Scammon's efforts, and it elicited from the Secretary a remarkably clear and fresh statement upon the treatment of pastures, with a convincing argument based upon the practice of dairy districts of the United States, in favor of the cultivation therein of our natural grasses.—Equally interesting are the Secretary's observations upon manures, submitted in the discussion upon the interesting paper presented by Mr. Adams of Franklin county; upon lime and in continuance of the same discussion; and upon the bone as well as upon the foot and mouth disease in cattle, which to our great joy, we are told has disappeared from our state as suddenly and mysteriously as it came upon the neat stock in some sections.

There are in this attractive book various other papers, all possessing a degree of merit worthy of a more extended notice than our limits will warrant. Among these we notice one by Hon. S. Wasson of Hancock, on the comparative value of hay and Indian corn, one by Mr. Hawes of Knox, on underdraining; two by Col. Wm. Swett, upon management of dairy cows, and on clean culture, one by Frank Buck, Esq., of Hancock, on the utility of farmers' clubs; and a very good and characteristic essay by the veteran member from the State society, Calvin Chamberlain, Esq., of Foxcroft, upon "Our Farm Experience and the Lessons of the Year." Each of these papers formed the basis or text of a thorough and eminently practical discussion, which is faithfully reported in a most lucid and readable style. Mr. Goodale's own notes are always pregnant with suggestive thought making clear every half said good thing, unobtrusively filling in all gaps and supplying all deficiencies with pertinent words as well as thoughts, so that a general harmony of form pervades his yearly reports, which are becoming a valuable library of the choicest agricultural literature, sound, sensible and thoroughly practical throughout.—[Portland Advertiser.]

POLITICAL AND PERSONAL

The New York World advises Greeley to "go West."

The Philadelphia Union League has endorsed Grant.

Some of the Democratic papers are for Greeley "till forbid." The Bangor *Commercial*, for instance.

It is reported that the Greeleyites have bought up the Washington Patriot, and will hereafter run that journal in their interests,

The chance for the Mangelwurtzel ticket at Baltimore is growing slim. Those Democrats have not favored agriculture since their noble cheese-grower, Seymour, struck a streak of bad luck.

A correspondent of the Tribune who has been on a tour of observation through the South, informs that paper that "as matters now look, the negro vote will be almost solidly cast for General Grant"

The Brooks Convention in Arkansas nominated Joseph Brooks for Governor, condemned the present State and National administrations and endorsed Greeley and Brown and the Cincinnati platform

An inebriated Democrat was dining at the Ives House the other day. "Beef, pork, mutton, veal or chicken," said the polite waiter. "I don't care," was the reply, "anything to beat Grant."—[Western paper.

The Illinois Republicans have selected their old and popular standard-bearer Gen. Oglesby as their candidate for Governor, and have endorsed the administration of President Grant. Illinois is one of the States now sure for Grant.

A correspondent of the Times writes
I find the following passage in Mr Greeley' *American Conflict*, vol. 2, page 689
"GRANT, however, remained at its head—undismayed, unshaken, inflexible"
Hurrah for GRANT!

The New York World on Tuesday said —"Only Democratic endorsement of Greeley can certainly elect Grant. Greeley's friends have not one Republican vote in their hands to show for every ten Democratic votes which all Baltimore itself can never get cast for him"

It looks odd to see the New York Tribune practicing regular copperhead motions and trying to master the genuine Democratic political speech. How long is it since anybody supposed the Tribune capable of talking like a copperhead against laws to suppress Ku Kluxism? It is now practicing this kind of talk, with notable zeal.—[Worcester Spy.

THE "LATER FRANKLIN" ACCEPTS

With downcast eyes and modest smile
Our simple peasant hears their choice,
Stands pensive at his plough a while,
And frankly thus gives voice

"Do I accept? Dear friends and kind,
Your timely zeal amazes me yet—
Office I never have declined,
And never will, you bet."

—*N. Y. Commercial.*

The Liberals make much of the supposed [illegible] of our Irish citizens for Horace Greeley, and claim them as a unit in his favor.—This is counting chickens before they are out of the shell, or likely to come out. The New York [illegible] the New York Tablet and the Freeman's Journal, three influential Irish-American journals, all oppose Greeley, the Tablet saying "We know Horace Greeley too well to believe in him, and we should now prefer to see General Grant re-elected to seeing him elevated to any office above that of path master"

CONCERNING GREELEY

Mr Greeley's letter has furnished the text for considerable comment in the political journals from which we make a few extracts. The Boston Journal says

The venerable editor of the Tribune is a great logician. In his letter of acceptance he says that the work done at Cincinnati, i e., the nomination of Greeley, is ratified by "telegrams, etters and comments of journalists, independent of official patronage, and indifferent to the smiles or frowns of power" Therefore, all journalists who do not support the erratic philosopher of the Tribune are not independent, but mere tools of the Government. This pleasant way of saying "all honest editors support me, and they who do not are liars, villians and scoundrels" is on a par with the remarks made in the Tribune, which alluded to country journalists as those "small creatures whom God for some inscrutable reason permits to edit country news papers."

The Advertiser calls attention to the tinkering of the Ku-Klux plank, of which we made special note in our comments It remarks:

The Greeley version of the platform is more readable than the original resolutions, owing to its longer experience in the legerdemain of politics than that of the young men whom he outwitted They would be astonished—if they were now capable of being astonished at anything—at the latitude of the construction which Mr Greeley gives to the anti Ku Klux or State rights resolution, the only fragment saved from the wreck of the fancies which they called principles The convention resolved that "local self government with impartial suffrage will guard the rights of all citizens more securely than any centralized power" Mr Greeley adroitly interpolates a clause covering the whole class of Ku Klux legislation, and making his acceptance of the resolution subject to its adoption. He does not accept the broad declaration of the convention and of course, as an honest and ingenuous man, he meant by the qualification to declare his dissent from it

The N. Y. World Democratic gives the letter and its author a scathing review, and concludes thus

This stuff bid for Democratic votes at the sacrifice of consistency stamps him as a demagogue. He has virtually given up every thing for which he has been contending for the last forty years, political philosophy and all. It would be curious to append to each article of the Cincinnati platform as he has refashioned it, contradicting quotations from his own writings on the same points. The contrast might not make him blush but it would convince the country that Mr Greeley is ready to make any sacrifice of principle and consistency, to gratify his ambition of spending four years in the White House as the dispenser of offices His letter of accept ance though well enough written, is in tone and substance, a stump speech, such as no candidate ever before offered to the people on a similar occasion This abject appeal for Democratic votes can do him no good the more he is abjuring his previous opinions is too easily seen through

The Evening Post, Liberal regards the letter as crafty rather than frank and sincere, and says

As cunning is one of the principal traits of the distinguished candidate we expected a good deal of it in his note but hardly as much as we get. The shy old gentleman begins by confessing that he hesitated to accede to the wishes of his friends (they were sent especially to nominate him) until he felt the pulse of the people but that having felt it, having been uproariously approved by all the toy drums and tin pans of the universe he has no longer any doubt It is not true that there has been any considerable response from anybody but the regular traders in politics but it is adroit to assume that there has been—in politics as in logic one may take for granted what he ought to prove Mr Greeley's interpretation of the platform hardly relieves it from platitude and insignificance but it is curious to see how in his eagerness for office he is willing to hide his protectionist proclivities—the convictions of his life—under a mass of words

* * * * * * * *

The new candidate, indeed treats the whole matter with the cunning of the politician, and with the wisdom of the statesman

A correspondent having asked some questions with reference to Mr Greeley's probable conduct as President under certain contingencies, the Portland Advertiser replies —

"The question does not embarrass the Advertiser in the least and we hasten to reply that in our judgment any discussion of the probable policy of President Greeley" is quite as unnecessary as the grief of the Irish servant girl who was found one baking day beside the mouth of the oven with her head in her apron, crying, and whimpered that she had been thinking of what a dreadful thing it would be if she should marry and have a little baby and the poor little thing should crawl into the oven and burn to a cinder" If Mr Greeley should be elected and seven or eight States should want to secede and he should let them go, and the country should let him let them go, it would be a terrible crisis, but the danger is really too remote to justify any grave apprehensions and an argument founded on that infinitesimal possibility does not appeal with much force to the people who in this year of grace will choose the next President.

President Grant will no doubt be re elected if he is re nominated but it will be because the majority of the people of the United States believe he is more likely to be the choice out of politics than a New York politician more likely to recommend a reasonable tariff than a disciple of Henry C Carey and more likely to bring a sound judgment to bear upon the new questions which every administration is called to confront than the gentleman whose slip shod logic in a great emergency our correspondent calls to mind

We were aware that our neighbor, the Commercial had cooled down remarkably from the red hot Democracy of other days, and that it was even manifesting a willingness to partially cast its political skin but we were not prepared for the announcement that we had fully converted it from an opponent into a most humble and devoted follower Startling as this redemption may appear however, we cannot doubt the evidence of its own words when in reply to our query as to which side it is going to take in the pending campaign It modestly refers the editor of this Whig to the Book of Ruth, first chapter 16th and 17th verses, which read as follows —

16. And Ruth said, Entreat me not to leave thee or to return from following after thee for whither thou goest, I will go, and where thou lodgest, I will lodge thy people shall be my people, and thy God my God

17. Where thou diest, will I die, and there will I be buried the Lord do so to me and more also, if aught but death part thee and me

In view of this astounding conversion which embarrasses us with the fervor of our new follower, well may we repeat that — "While the lamp holds out to burn, the vilest sinner may return."

A Boston Globe Special has this —"Mr Trumbull is reported by Senators to have said, in a recent private conversation over the pension bill for Mrs. Farragut, that he regarded the admiral as second only to Gen, Grant in the service, and, further, that no one had a right to say—for he had not given any such right—that he, Trumbull, preferred Greeley to Grant."

It seems that the letter of Senator Ferry, which the Tribune claimed as favoring the Liberals, was not the one to which had been made by Republicans. The letter in point is dated May 18, addressed to Hon. J. B. Ferris of Stamford, and among other things, contains these statements:

"To-[illegible] [illegible] Greeley, [illegible] [illegible] continue in the [illegible]

Our neighbor [illegible] Wendell, Phillips to [illegible] [illegible] which."

A Washington special says Greeley's letter has softened the Democrats towards him, and in the absence of Voorhees, the most bitter Democratic Congressmen are becoming more tractable.

Mr Rogers of North Carolina whose admission to the House Thursday, gave a full Congress for the first time since the rebellion, was an old Whig member of the XXXIIId and XXXIVth Congresses, and voted against the Lecompton constitutional bill.

In an article on the Vice Presidency the Boston Advertiser expresses the belief that Senator Wilson will receive the united vote of the New England delegation It is in error, so far as Maine is concerned The delegates at large from this State were instructed to vote for Grant and Colfax, the delegates from the 2d and 3d districts were similarly instructed, the delegates from this (the 4th district) were instructed to vote for Grant and will also vote for Colfax, and those from the 1st district will undoubtedly support the whole ticket of 1868. Maine has had reason to disfavor "swapping horses while crossing a stream," and while Mr Wilson is highly respected, Mr Colfax is regarded as the strongest candidate we could name, and one who has been proved and not found wanting If given for any one but Mr Colfax, the united vote of this State would undoubtedly be cast for Speaker Blaine.

THE TRIBUNE'S NEW YORK FOLLOWING. In a recent issue the N. Y. Tribune gave the following splendid and truly imposing list of the Republican journals of that State which have made up their minds to accompany it into the Cincinnati movement—"and its consequences"

Every journalist in the State recalls the names of the Genessee Valley Free Press, Yates County Chronicle, Greenpoint True Republican, Ahwaga Chief, and perhaps others of weight, as already supporting the Cincinnati ticket without reservations.

Whereat the World exclaims: "A magnificent showing! The New York Tribune, which in its 'high and palmy days' had the whole Republican press of the State and of the country at its heels, now musters a following about as respectable as Falstaff's soldiers! The Genessee Valley Free Press, Yates County Chronicle, Greenpoint Republican, and Ahwaga Chief,—what a muster roll!"

THE SENATE AND THE TREATY.—The Boston Advertiser's special says: "The Senate spent the greater portion of Thursday in executive session on the treaty, and adjourned with the understanding to sit the matter out Friday Mr Sumner was the chief speaker in opposition to the English proposition for settling the pending trouble. The amendments proposed to the supplemental article do not change the substance of the proposition There seems to be no doubt but that it will pass in such shape as to accomplish exactly what the draft telegraphed by Mr Schenck would if agreed upon. The discussion of the Butler resolution still continues, and all that it has elicited through conversations regarding the real understanding among our commissioners and those of Great Britain goes to confirm what was telegraphed last night, to the effect that it was perfectly understood that our case was to contain a declaration of the principle of consequential damages without a distinct claim for pecuniary compensation. The belief on the part of our authorities is also as stated, that when the English agents first returned from Geneva they expressed the conviction that the conference was hostile and it would never do to allow it to pass upon so clear a demand for compensation for the indirect damages as the United States had made. Immediately on their return the press was called into play and the excitement against the American case began"

The N. Y. Post says At a meeting of Mr. Greeley's supporters in East Twenty first street Monday evening, to make arrangements for "an immense ratification meeting," a representative of a Democratic club, who is more honest than discreet, said that his friends favored Greeley because he was "the least of two evils" The Tribune, which is more discreet than it ought to be for a paper that is not an organ, does not print this remark.

The N Y Times pays the following just tribute to the marked abilities and high character of the Speaker of the House,—

Hon. James G Blaine, the present Speaker of the House of Representatives, was yesterday renominated by the Republicans of his district, for the sixth time There is happily no question of his re election. Mr Blaine's record is that of a candid, faithful and diligent legislator He has been a most laborious member of Congress, and his course thus far has been marked equally by discretion and sound sense on the one hand, and a consistent devotion to principle on the other.

A FAIR RETORT The N. Y. Tribune said a few days ago that the rural journalists regarded the nomination of Mr. Greeley as an honor to the profession The "returns" thus far received from the country districts, however, seem to indicate a different sentiment The Troy Times, for example, wants to know what the Tribune meant by speaking some time ago of country journalists as those "small creatures whom God for some inscrutable reason permits to edit country newspapers?" The 'small creatures" appear to have long memories

The Paris journals generally agree in an expression of opinion that the debates in the Assembly on Tuesday and Wednesday on the war contracts inflicted a crushing blow to the hopes of the friends of the Empire The Journal des Debats says the result of the discussion is a Parliamentary Sedan. It is understood the party of the Left in the Assembly will, after the close of the impending trial of Marshal Bazaine, demand the impeachment of members of the last ministry under the Empire

elect Greeley, for it is very evident that the popular Democratic vote will never be one of coalition. The situation he regards as really alarming, and were it not for the fact that the die is cast and there is no retraction, the managers of the Cincinnati Convention would gladly repudiate their selection, and nominate better candidates.

THE GREAT

STONE & MURRAY CIRCUS,

Under the Sole Direction of JOHN H. MURRAY, Manager and Proprietor.

Conscious of his many obligations to the public the Manager invites the attention of all admirers of a novel and original arenic exhibition to the following BRIGHT GALAXY of Europe and America's unsurpassed EQUESTRIANS, GYMNASTS, ACROBATS, CLOWNS, BLOODED HORSES, and BABE PONIES, combining an entertainment conspicuous for the

CHASTE, ELEGANT and REFINED.

The following are a few of the leading attractions for the season of 1872, more than sustaining the reputation of the GREAT STONE & MURRAY CIRCUS

A TRIO OF CHARMING EQUESTRIENNES!

First appearance here of the dashing English Premier, the Star of the Arena,

Peerless Lizzie Keyes.

The brilliant exemplar of the High School of Equestrianism,

Mlle. ROSINA,

has been retained to introduce her intelligent Palfrey, DAGAMAR

Madame ELIZABETH,

a stranger in our midst but a Queen of the Circle Abroad, completes this Bevy of Beauty A trio of great Equestrians

CHARLES F. REED,

without doubt the best Six-Horse Rider, Pirouettest and Somersaultist in the profession, for the first time appearing in this constellation.

HARRY WELBY COOKE,

the British Champion has again been secured, an announcement that cannot fail to create great satisfaction among his numerous admirers.

Every boy and girl will be delighted in witnessing the remarkable precocity of the greatest of Child Riders.

LITTLE GEORGIE DUCROW.

THREE FUNNY CLOWNS

contribute to the hilarity by their flashes of wit, rich humor, and biting sarcasm, gentlemen, every one of them, they utter nothing indecorous, in fact there is not in the whole entertainment a single word or action not in keeping with good taste and decorum

The manager has great pleasure in introducing to the citizens of the United States the famous London Clown and Court Jester,

DAVID A. SEAL,

a "Fellow of infinite Jest," distinguished for his impromptu hits at the follies and foibles of humanity

The ever-welcome songster and happy humorist,

TOM BARRY,

is again with us, with that excruciating comical animal and gymnastic phenomenon, the great Elephant BOLIVAR Also

GEORGE ADAMS,

the grotesque and eccentric Clown, worthy of his associates, but entirely different in style and school The gymnasia has been augmented by the engagement of the LE CLAIRE BROTHERS, being their first appearance, in astonishing feats upon the flying Trapeze, and Mid-air Flights, which has given them an established reputation throughout Europe. HOGLE and FRANKLIN are two more new faces to be commended appearing in remarkable exhibition of skill and strength. The following scarcely need to be complimented, from the fact that they are already well known to the patrons of the Great Stone & Murray Circus, by their many years' connection therewith WILLIAM DUCROW, upon the Corde Volante, SIGNOR COLUMBUS, the India-Rubber Man, EUGENE LEROUX, Tumbler and Tourtiguer In addition to a host of auxiliaries, making this establishment, in every detail, a Perfect Circus. JOHN H MURRAY introduces his beautiful tutored Trick Horses, Spot, Beauty and Black Eagle The Afternoon's amusement will terminate with the appearance of THREE COMIC MULES, Humpty Dumpty, Pete and Sallie The Evening's performance terminating with the laughable trifle, The Bear and the Sentinel, in which Tom Barry will appear, in our reception with a full Company The Grand Entree will take place each day of Exhibition at 10 o clock A, M, headed by Prof O P Perry's Cornet Silver Band thirteen in number, in the showy uniforms of Royal Prussian Hussars, borne in the Golden Chariot, "Car of the Conqueror," drawn by Twenty Arabian Horses, guided by Mons. J H. Paul, followed by a team of twelve Little Ponies, the smallest and most beautiful horses ever seen For the especial accommodation of the juveniles, they will be exhibited, free of charge, in a tent adjoining the Mammoth Pavilion The Great Tent will be illuminated by Joshua Kidd's Patent Burners, the most brilliant light ever given under canvas. No smoking inside the Pavilion. Carpeted seats for ladies and children.

Two Performances—Afternoon and Night. Doors open at 1 and 7 P M. Admission, 50 cents. Children under 10 years of age, 25 cents.

Will also exhibit in Belfast May 31, Bucksport, June 3d; Ellsworth, 4th; Cherryfield, 5th, Machias, 6th, Pembroke, 7th, Eastport, 8th. Tickets can be secured in advance at Stubbs & Co's Bookstore.

—The old wooden passenger depot of the E. & N. A. Railway, will be removed on Monday from the foot of Exchange street up the line to a point near the company's blacksmith shop, where it will be used by the car-repairers.

—A householder on the East side, who has missed several of his chickens lately, set a trap for the thief a few nights since, and found eleven skunks caught in it, in the morning. "Which is coming it *strong*, though I state but the facts."

—Mr. B. P. Mitchell, employed in Maj. Hersey's Moccasin manufactory, fitted eighteen dozen moccasin boot legs, making over 118,000 stitches on a machine run by foot-power, in ten hours, yesterday. The "boys" call this a good day's work and hard to beat.

—In tearing down the old stable connected with the house on Hammond street recently purchased by S. B. Fifield, esq., the workmen found the roof to be boarded with clean pine boards, 27 inches wide and "sound as a nut," notwithstanding their age. Such lumber would now be worth almost any price its owner could ask for it.

—Mr. E. K. Gregory, aged about 30 years, was drowned in Caribou Lake last Friday. He in company with another man, was sailing in a birch canoe, when it upset. Mr. Gregory went down, but his companion clung to the canoe and drifted ashore. The deceased was a son of Mr. E. H. Gregory, formerly landlord of the hotel at Corinna, and was unmarried.

CURIOUS CASE. *Mr. Editor* :—There was born in Orland on Sunday morning last, to wife of a Mr. Hysler of that place, a female child having six perfectly developed toes on each foot, five fingers and thumb on one hand, and six fingers and thumb on the other; that is, the index fingers are divided at the second joint and terminate in two, with the nails and all intact. This is a very rare case of abnormal development. We occasionally hear of children being born with an extra finger or two, but in nearly all of the cases they proved to be deformed, illy developed and so useless, and are generally removed; but in the case above recorded, all of the members are equally well proportioned, well developed, and, will be useful to the child. The hands and feet are developed to correspond with the extra appendages. Mrs. Hysler has one other child, 4 years of age, who has an extra finger on each hand and toe on each foot, all of which the child uses.

THE BATTLE OF GETTYSBURG. Col. Bachelder's lecture at Music Hall last evening on the positions, movements and deeds of the Maine troops at Gettysburg, was deeply interesting, and the many veterans present who participated in the battle verified the correctness of the Colonel's statements in every particular. The great painting was inspected by the audience with the admiration it deserves. It grows upon one with each succeeding visit, never wearying and always presenting some new feature of interest and wonder.—It satisfies the realistic critics, and at the same time preserves the artistic in conception and execution in the best style of modern historical painting.

Our readers should remember that to-day is the last on which it will be exhibited here. This afternoon scholars of the public schools will be admitted at reduced prices, and we hope that the opportunity will not be not be lost to them through any negligence of their parents, who should gladly consent and furnish the means for them to learn the history of this great battle from a gentleman who is of all living men best qualified to relate it.—In the evening Col. Bachelder will give a general review of the battle, embracing the movements of corps, divisions, brigades, regiments and batteries, interspersed with incidents of the engagement, etc.

COMPLIMENTARY. John S. Chadwick, esq., having been elected Secretary of the Bangor Insurance Company, and resigned the position of Secretary and Treasurer of the Bangor Mutual Fire Insurance Co., held by him since its organization, in February, 1859, the Directors of the last-named company at a recent meeting unanimously passed the following resolution, which was offered by Wm. C. Crosby, esq., (who has served the whole term as Director) and seconded by Hon. Franklin Muzzy, the first President of the Company:—

Resolved, That the resignation of our Secretary, John S. Chadwick, to take effect on the election of his successor, be accepted, and the Board of Directors desire to express and record both their appreciation of the value of his services rendered to this Company in its infancy, and to bear witness to the fidelity and efficiency with which his labors in its behalf have ever been characterized, together with their hope that in all his future business relations he may meet with success and prosperity.

E. & N. A. DEPOT. The new depot of the E. & N. A. Railway Co., at the foot of Exchange st., is nearly completed and will be ready for occupancy in a short time. Indeed, two of the offices are now occupied—that of the General Baggage Agent, Mr. H. T. Clark, and that of the Foreman of Repairs and Supply Department, Mr. Nat. L. Swett. Mr. Clark's office is on the Exchange st. side, 12 by 16 feet, with rows of broad shelves for baggage, extending to the ceiling, a large case for the Thomas checks, now exclusively used on this road, a desk, etc. The office is neatly wainscotted and finished in ash and has entrances from the street and from the gentlemen's waiting room—the door to the latter being cut in two high enough to support a small counter and leave the upper half open. Mr. Swett's room is on the east side of the building, and has over it a store-room for supplies reached by stairs and an elevator. Here are stored supplies for the trains, such as oils, waste, lanterns, flags, window glass, etc., in large quantities. Mr. Swett informs us that about 75 barrels of lubricating oil are used on the road annually, also 10 barrels of kerosene and 3 barrels of lard oil for illuminating purposes. The Pullman cars are lighted with large sperm candles, of which a stock is kept on hand. About 2000 pounds of cotton waste are annually used for cleaning the machinery of the engines, packing, etc. Mr Swett, [illegible] new [illegible] [illegible]

CONCERT. We were sorry not to see a larger audience in Norumbega Hall last evening, as the concert was most excellent and deserved a crowded house. Nevertheless those present, some two hundred in number, were people of culture, who could and did appreciate the fine music afforded in the performance of the following

PROGRAMME:

Trio—Memory. *Leslie.*
MRS. STAPLES, MR. FESSENDEN AND MR. MCLELLAN.

Song—Norah, *Howson.*
MR. FESSENDEN.

Cavatina—I'o, Ludia (Torquato Tasso) *Donizetti.*
MRS. STAPLES.

Serenade—(Arranged for Piano and Cabinet Organ.) *Titl.*
MR. AND MRS. DAVENPORT.

Song—The Yeoman's Wedding. *Poniatowski.*
MR. MCLELLAN.

Duett—Vieni al mio sen, *Millard.*
MRS. STAPLES, MR. FESSENDEN.

Piano Solo—(a. la Cascade, b. Pavane—air Favori de Louis XVI) Arranged by *Brisson.*
MR. DOW.

Song—The Go'd Beater, *Randegger.*
MR. MCLELLAN.

Song—The Maiden's Story, *Sullivan.*
MRS. STAPLES.

Song—The Stirrup Cup, *Arditi.*
MR. FESSENDEN.

Duett—The Syren and Friar, *Emanuel.*
MRS. STAPLES, MR. MACLELLAN.

Mrs. Staples was accorded an enthusiastic reception, and her singing far exceeded the anticipations of the audience, if we may judge by the applause which followed each piece. She has a superb voice, which the year's training under European teachers since her last appearance here, has done much to improve, and her skill and taste in managing it was the subject of universal remark last evening. Especially fine was her rendering of the cavatina from *Torquato Tasso*, which received an *encore*, as also did her last song; in response she sang "The last Rose of Summer" and "Sweet Nightingale."

Mr. Fessenden was in excellent voice, and as usual gave much pleasure in all the selections in which he had a part. His songs were heartily applauded, and being recalled after the last, sang "Questa e Quella."

Mr. McLellan was recalled after singing the "Yeoman's Wedding," and responded with a French buffo song in which his powerful and well-managed baritone voice had ample room for display.

The duet by Mr. and Mrs. Davenport of this city, the former playing a Mason & Hamlin cabinet organ and the latter a piano, was a novelty here and gained an *encore*. Responding, they played "Sounds from Home" with much expression, a fine effect being produced by the flute and French horn stops of the organ in the solos, while the accompaniment was by the piano.

Mr. Dow's accompaniments were, as usual, faultless, and his piano solo was a marvel of execution.

It is a matter of regret that one of those big-footed individuals, who seem to delight in disturbing the enjoyment of their neighbors, got up and "clumped" the whole length of the hall to the door during one of Mr. Fessenden's songs. Mr. Fessenden stopped and calmly waited until the man was outside, and the audience appreciating the "point," loudly applauded him.

STATE SABBATH SCHOOL CONVENTION.

THURSDAY FORENOON SESSION.

DEXTER, May 23, 1872.

The Convention was not so well attended to-day as yesterday, although the seats were filled. The regular exercises began at 9, by singing the Hymn "Nearer my God to Thee," after which Rev. E. M. Haynes of Lewiston was called to the stand and spoke on the subject of Sunday School Concerts as follows:—

"*Mr. President*:—This subject I find has been thoroughly discussed, and different opinions are held in regard to it. The first use of the Concert, I suppose, is to interest those in the schools, to instruct them and do them all the good we can. We thus tie them there; we instruct them there and save them. But when and how often shall we hold our Concerts? Not too often, not as a general rule once a month. There are not many schools that give Concerts oftener than this without a very extraordinary Superintendent. I would have them regular, not once a month, then once in two or three months, and so on until they finally die out. Neither would I hold them invariably in the evening, though in some places more will attend at this time and thus more good will be accomplished.—But as is the case with the Sunday School, it should be at the best time for the largest number to attend.

Again, of what shall the exercises consist? I think they ought to be religious and moral, and nothing which tends to a diversion of the mind from these subjects ought to be introduced. We are finding every day how much better the Bible is for this purpose. The Superintendent should nevertheless vary the exercises in such a way as to suit his own school. There should be amusements. There is amusement in every child's nature. I do not mean that these should be of a frivolous nature, but such as will amuse and at the same time instruct. There is in Sunday Schools a great deal of delay in getting ready to give music, and by the time all is ready the interest is gone. I do not like a melodeon nor an organ, but would choose a piano—something that is quick. Not by any means that the music should be "jiggy," but such that the singing will be spirited.

Who are to take part? Everybody. Let there be some part for every one and every one have something to do. Invite all to come. When the work is undertaken in earnest and suitable preparation is made everything goes off glib and well, and when carried out with such a preparation as makes the exercises interesting then it is instructive.

When the speaker closed a member asked him to illustrate what he meant by amusements. He answered, "In my own school I have a paper to which the children contribute, and I also use a blackboard, so that when, as there sometimes does in some lessons, anything not understood comes up, I make use of the board in explaining it to the children."

Rev. Mr. Townsend spoke briefly, giving his ideas on making the concert interesting and instructive.

Rev. Mr. Thayer also gave his method of conducting a concert.

Rev. Mr. Jewell spoke on making the concert interesting, and gave his personal experience in this direction.

Rev. Mr. Cameron spoke on the same points as those before him.

Rev. Mr. Baker thought the exercises ought to be various, and the children have the principal part to do in it. Hard labor would be required of course. Thought it not necessary to have any particular form for the exercises.

Rev. Mr. Bryant said, "I endorse all Bro. Haynes has stated, and that the point of preparation ought to be emphasized."

The audience here joined in singing, after which the Committee on Resolutions reported the following, which after some discussion were adopted:—

Resolved, That as it is the object of this Convention to awaken a deeper interest in Sunday School work throughout our State, it is desirable that all our schools should be represented in these annual gatherings; and that pastors of churches, superintendents and teachers of Sabbath schools are not only earnestly invited to be present at these gatherings, but to take part in the deliberations belonging thereto.

Resolved, That we shall hail with pleasure the manifestations of an increasing interest in the great work of [illegible] in our State, and as in most of our churches more time is needed in order that this work may be more successfully prosecuted, we recommend that the time occupied by one of the preaching services on the Sabbath, either in the forenoon or afternoon, be set apart for [illegible] [illegible] er a question, and that we earnestly recommend the organization of such conventions in all the towns and counties in the State where there are none held.

Resolved, That one of the most promising fields for the great Temperance reform is among the children and youth of our land; we therefore recommend the circulation of the Total Abstinence Pledge in all the Sunday schools of our State.

Resolved, That as purity in practice and consistency of life are essential in the officers and teachers of our Sabbath schools, we therefore suggest whether it would not greatly aid in the establishment of correct principles and good habits to discountenance by precept and example the use of tobacco, and therefore counteract the increase of this pernicious habit in the community, especially among the young.

Resolved, That we tender our hearty thanks to the citizens of this beautiful town for the cordial and generous manner in which they have entertained us.

Resolved, That the thanks of this Convention be presented to the liberal railroad and steamboat companies which have so kindly passed us over their lines at a generous reduction from their regular fares.

Remarks were made by Prof. Asa Hull of Philadelphia, on music, contrasting the way it is conducted and the way it ought to be.

The President announced here that Rev. E. Knowlton, who was to have spoken at this time, was absent on account of sickness in his family. The question box was then opened and a part of the interrogatories therein were answered by Rev. Smith Baker.

Adjourned until 2 P. M.

AFTERNOON SESSION.

The Convention came together again and the exercises began with prayer by Rev. C. F. Allen. Rev. H. Toothaker then gave a practical illustration with a class, of a "Model Lesson." The lesson used was taken from Matthew xxv, beginning at the 14th verse.

The executive committee at the close of this exercise offered the following:

That in view of the work entrusted to this committee—

Resolved That said committee be authorized to employ such agencies as in their judgment are needed to carry forward the objects contemplated in the reports of the committee adopted yesterday.

This resolve was adopted by a unanimous vote. Rev. C. F. Allen was then called and spoke on the "Duty of Church Members to attend the Sabbath School. We give the following brief abstract:—

Some propositions are so nearly self-evident truths that it is difficult to present any argument in their favor. Who is there that does think it is the duty of church members to attend the Sunday School? Such a person can scarcely be found in any of our churches. Why then should we discuss this theme? Because, though the doctrine is admitted, the practice is not in accordance with the theory. In all our churches are many who never attend the Sunday School. And the great object of this convention is not merely to enlighten the mind, but to stir up the heart to better resolves and to lead to more efficient action.

The duty of the church member to the Sunday School grows out of his relations as a member of Christs' church. The wondrous mercy that saves the sinner by regeneration and adoption into the spiritual family brings the redeemed into closest relations with all the renewed; and when he is brought into the enjoyment of church privileges he voluntarily acknowledges the obligations of fidelity to the interests of the church. He cannot be faithful to his covenant vows without being interested in the institutions of the church. The Sunday School has such a vital connection with the prosperity of the church that no one can be a consistent church member without feeling an interest in this institution. The appropriate method of manifesting this interest is by attending the Sunday School. That only which would be a sufficient excuse for not attending other means of grace, will be a valid excuse for the neglect of this duty.

Why should the christian attend the Sunday School? I answer, for his own personal improvement The time is past when the benefits of Sunday School instruction are supposed to be confined to a few ignorant and neglected children, who would otherwise receive no elements of instruction. The great work of education in religious matters, is taken from the common school, the academy, and the college, and is placed under the direct supervision of the church in this department. Here, therefore, is the great training field of our people in bible truth. Not the child alone needs the training which as a teacher or student every adult christian may receive here. No one has studied the bible so thoroughly or read it so extensively that he may not receive fresh inspiration from the study under the sympathy and guidance of those who together are investigating the same truths and moved by the strong impulse of a common motive and a common interest for a common end. Those who say they can as well study at home, do not study as well. They have not the interest, the encouragement and the helps.

The church member ought to attend for the sake of his family. His example is a powerful stimulant to excite his children to attend. They will not then feel so inclined to leave the school when they have arrived at the age in which the instruction is the most needed and the most valuable. Too often the boy of sixteen is aping his elders when he thinks he is too old to attend.

The christian ought to attend for the sake of his unconverted neighbors.

By faithful and constant attendance as a teacher or a scholar, we can induce others to go where the Bible is presented to the mind and the heart; and thus the aliens may be made fellow-citizens with the saints, and heirs of the glorious inheritance.

When we see that through this institution the ranks of the church are supplied and that without this powerful instrumentality, comparatively little would be effected in the extension of the Redeemer's Kingdom upon the earth, loyalty to Christ demands of every disciple attendance on this means of grace.—It is not only the large numbers that are thus gathered into the church, it is also the character of the christians gathered from the Sunday school that makes these recruits so important. In the moral tempests and convulsions of society, in the great sweep of opinions, the one trained from youth in the Holy Scriptures is the firm, stable and consistent christian.

The christian should sustain the Sabbath school by his presence on account of its advantages to the country. He is the true patriot who draws from the threatening cloud the lightning by so many safe conductors, gently to the earth, which otherwise might blast and destroy The threatening evil of the immigration of vast herds of the ignorant and degraded, can only be averted by christianizing the masses, and the most efficient way to accomplish this, is through the Sunday school.

The excuses made that he has no fancy for this work are not in accordance with his consecrated vows, or the nature of Christian self-denial. Let every church member cultivate an interest in this noble work, and by faithful attendance manifest his interest, and soon the path of duty will be his highest joy. The pastor may faithfully proclaim the gospel truths and preach Christ mighty to save, but the impression on the audience is generally too vague and indefinite. The teacher can nobly supplement this labor by pressing home directly the truth on the individual conscience of each scholar in his class. And in the final triumph of the Redeemer's cause on earth, the Sunday school teacher will share a glorious part.

Rev. Smith Baker resumed the answering of the questions which were left over from the forenoon session. The President thanked Mr. Baker in behalf of the Convention for the able manner in which he had performed the duty, and after brief remarks by some of the members the Convention adjourned until 7 P. M.

EVENING SESSION.

This began with the meeting of a "Cold Water Temple" in the vestry and a prayer meeting in the church. The meeting of the Temple was to show the workings of the order, and that it is adapted to use in connection with Sabbath schools.

The subject of "The Pestalozzian system," which was changed from Wednesday evening to this, and that if Infant Classes and Infant Class Teaching were practically illustrated by Rev. O. M. Cousens, who gave a very interesting illustration.

After the usual closing exercises the Convention adjourned this, its fourth annual meeting. The Convention has been very interesting and great benefits will result. During its session the music, which has been conducted by Prof. Asa Hull of Philadelphia, who came by request of the executive committee, and all testify to the able manner in which he has performed this part of the programme. The delegates and friends go home [illegible] with this beautiful village and [illegible] hospitality and kindness of its people.

In making calves'-foot jelley, take a live calf, place the hind feet in a corn-mill, and then commence to turn and the jelley will flow out in its crude state. Collect this in a pan, and throw away the calf.

It is said that persons affected by the concussion of a stroke of lightning can be saved in most cases by reactionary remedies; such as the rapid dashing of cold water over the victim, and the application of friction.

There are in the kingdom of Great Britain 2800 Congregational Churches, exclusive of about 3000 stations, in which divine service is conducted with greater or less regularity. The total number of ministers is 4044.

Two strangers from the country discussed for half an hour in Printing House Square, New York, the other day, as to whether the bronze statue of the earlier Franklin was a striking or only a moderately good likeness of Abraham Lincoln.

In response to an advertisement of a Brooklyn church music committee for an organist, the following was received: "Gentlemen I noticed your advertisement for organist and music teacher, either lady or gentleman.—Having been both for several years, I offer you my services."

A Petersburg clergyman while preaching on Sunday, accidentally stepped back upon the furnace grating in the pulpit, and it being insecurely fastened, he suddenly disappeared from view in the midst of a sentence. He, however, soon recovered himself uninjured, and proceeded with his sermon.

A counsel had mimicked a witness who, as a north countryman pronounced the word "water" as if it had been "watter," enquired of him whether in his part of the country they spell "water" with two t's? "No," said the witness; "but they spell manners with two n's."

STANDARD

SECURITY

We are selling at par and accrued interest, and strongly recommend as a safe and profitable investment, the First Mortgage 7.30 Gold Bonds of the Northern Pacific Railroad. At the present gold premium they yield 8¼ per cent. interest—over one-third more than United States 5-20's. Their elements of strength and safety are the following:

I. They are the standard obligation of a strong corporation, which represents in its Shareholders and Managers large capital and railroad experience, and is engaged in prosecuting a business enterprise whose great usefulness and solid success are not matters of doubt.

II. They are a first mortgage on the Road, its Right of Way, Rolling Stock, Telegraph Line, Equipments and Franchises.

III. They are a first lien upon the Traffic or net Earnings of the Road. The net receipts of the first Trans-continental railroad, in the second year after completion, and mainly from Local Business, were equal to nine per cent on the total estimated cost of the Northern Pacific Railroad.

IV. They are a First and Only Mortgage on a Government Grant of Land, which consists of 12,800 acres for each mile of Road through the States of Wisconsin and Minnesota, and 25,600 acres per mile through the Territories of Dakota, Montana, Idaho and Washington. In average fertility of soil, healthfulness and mildness of climate, diversity and extent of resources, the belt of country comprising this grant is such as to render the lands very valuable, and insure their speedy sale and cultivation.—Sold at the average price realized by other land grant roads, the real estate endowment of the Northern Pacific Company will produce more than three times the issue of bonds per mile.

The Company is now offering for sale to settlers and Colonies Three Million Acres of its lands in Minnesota, and a large area on the Pacific coast will soon be placed on the market. Many thousand acres have already been sold. The proceeds of land sales constitute a SINKING FUND for the retirement of the First Mortgage Bonds, and the Bonds are at all times convertible at 1.10 into the Company's lands at market prices.

All marketable stocks and bonds will be received (by express or otherwise) at current prices in exchange for Northern Pacific 7-30's, without expense to the investor. Pamphlets and full information will be furnished on application.

For further particulars concerning this bond or purchase of the same, inquire of

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

75,000 Acres

OF GOOD

Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County, New York.

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood. The subscribers own two large tanneries, located on the aforesaid tract, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access, being only from six to fifteen miles from both the Black River R. R. and Black River Canal, which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River. At this point or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power, (we might say right in the Canal and at the Depot,) to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap rate or the timber alone permitted.

MISS SAWYER'S SALVE.

HERE you have a salve combining soothing and healing properties, with no dangerous ingredient. A remedy at hand for the many pains and aches, wounds and bruises to which flesh is heir. Is more easily applied than many other remedies; never producing a bad effect, but always relieving pain, however severe.

It is prepared by *Miss Sawyer*, who has used it in her own extensive treatment of the sick, for nearly twenty years, with great success.

The principal diseases for which this salve is recommended are, *Chilblains, Rheumatism, Piles, Scrofula, Old Ulcers, Salt Rheum, Sprains, Burns, Fever Sores, Felons, Pimples, Erysipelas, Sore Eyes, Barber's Itch, Deafness, Boils, Ring-worms, Corns, Bites of Insects, Cancers, Toothache, Earache, Sore Nipples, Baldness, Swollen Breasts, Itch, Scald Head, Teething, Chapped Hands, Scalds, Cuts, Bruises, Croup, Cracked Lips, and Sores on Children.*

It never fails to cure Rheumatism if properly applied. Rub it on well with the hand three times a day. In several cases it has cured palsied limbs. For *Piles* it has been discovered to be a sure remedy. Persons that have been afflicted for years have been relieved by a few applications. For *Erysipelas* it works wonders, allaying the inflammation and quieting the patient. For *Chapped Hands* it produces a cure immediately. Let those with *Salt Rheum* obtain this Salve, and apply it freely, and they will find it invaluable. It is good in cases of *Scrofula* and *Tumors*. *Cancers* have been cured with it. The best Salve ever invented for *Swollen Breast* and *Sore Nipples*. No way injurious, but sure to afford relief. *Sore* or *Weak Eyes*—Rub it on the lids gently, once or twice a day. Cures deafness by putting it in the ears on a piece of cotton. For *Felons* this is superior to anything known. For *Pimples* this acts like a charm. For *Burns* and *Scalds*, apply the Salve at once and it gives immediate relief. For *Old Sores*, apply once a day.

Not among the least of the invaluable properties of MISS SAWYER'S SALVE are its beneficial effects on the hair. Rubbed on the scalp, in five or six different parts, it promotes the growth of the hair, prevents it turning gray, and on bald spots it produces a new growth of hair. No lady should be without this invaluable article as an indispensable cosmetic for the toilet. It eradicates dandruff and disease from the head, and blotches and pimples from the face.

From Mrs. ELIZABETH COOMBS, Brunswick.

Brunswick, April 4, 1867.

MISS SAWYER: I received your letter last evening, and was very glad you concluded to let me take your Salve. I think I can do well with it, and it will be quite an accommodation to my husband, *as he cannot get along without it.* He has tried everything else and has never found anything that healed his leg but Salve of yours, and we have both found it to be *all, and even more, than you recommend it to be.* We have had it in the family five or six years, and have used it *for everything,* and can *truly say we have never found its equal.* I use it for a weak back, and it acts like a charm. Mr. Coombs has had a *Fever Sore on his leg for thirty years, and would be a cripple to-day, if he had not found a remedy in your Salve.* It keeps it healed, and takes out the inflammation, proud flesh and swelling, and does for him all that he can ask. I can recommend it for a good many things that you have not, for I use it for everything. I consider it invaluable in a family. If you can put this testimony together, and it can be of any service to you, you are welcome.

Yours, &c., ELIZABETH COOMBS.

TO THE AFFLICTED.

If your Druggist is out of the Salve, and neglects to keep supplied, send seventy-five cents as directed below, and receive a box by return mail.

Put up in Large Boxes at 50 cents each (nearly three times as large as the box represented above). Prepared by MISS C. SAWYER, and put up by L. M. ROBBINS, Wholesale and Retail Druggist, Rockland, Me. A Trial Box sent free by mail on receipt of seventy five cents, by L. M. ROBBINS, Rockland Me.
